

TRANSLATION STUDIES

This course focuses on the theory and practice of translation. Its main objective is to provide a methodological, systematic and interdisciplinary study of the theoretical, descriptive and applied aspects of translation, by means of a detailed review of the different approaches to translation and various translation techniques, paying attention to the computer programs and other internet resources that facilitate the work of translators. Emphasis is placed on the translation from Spanish on Serbian and vice versa. The course content can be adapted for the students whose mother tongue is not Serbian.
